

# PUMPKIN WEAVE

For a thorough discussion of how to teach the weaving game, with different patterns, read my article Teaching Games Part One <http://theridinginstructor.net/139/teach-games-have-fun/> on [TheRidingInstructor.net](http://TheRidingInstructor.net)

Use the same process for the weaving game but use pumpkins instead of cones. Choose your pattern and speed allowed according to the ability of your riders. Remember to use a start and finish line.

- Use as many pumpkins as suits your riders.
- Students can weave up and back or they can weave like this picture
- Students could weave up and come back straight
